**Date:** Monday, November 30, 2015 11:38:42 AM

---

FYI, see below. As previously discussed (and as discussed again with Judith at this morning's staff meeting), I don't plan to be there, and neither Christos and Brian also do not plan to attend. Natalie will attend, though primarily as an observer. If anyone thinks we should reconsider this approach, let me know.

Subject: Gowanus CAG Meeting

Walter,

I was calling last week to let you know that Commissioner Silver and Commissioner Lloyd's representatives ) First Deputy Commissioner Steve Lawitts and Associate Commissioner for Public Affairs Eric Landau will be attending the CAG meeting. The CAG invited Alloy to present their plans and we asked for equal time because we think our plans are better and will result in greater parkland space. The Commissioner asked me to see if you would attend because we both think there is a better dialogue with the public when you are present. I personally have faith in you to keep the meeting on track. Emily and I are both in Paris for COP- 21 and an associated water conference.

Please let me know if your attendance is possible.

Warm regards,

Angela
